PRINCIPAL ACTIVITIES:

Water Treatment Solutions & Products

GENERAL MANGER:

Dani Aziz Al-Mahfoud

Total Staff Strength: +50

ALNAJDAIN
WATER TREATMENT

HISTORY & PHILOSOPHY:

In 2002, the company started as UTC in the water treatment industry, targeting the Domestic sector.

and small commercial Business. The company was the first to export the first bulk shipment of the reverse osmosis domestic filtration system to Kuwait. In 2004, the company decided to expand more by providing water solutions for the domestic and commercial sectors by providing service contracts to our clients. By 2008, the company had over 18,000 clients in the domestic sector. In the same year, the Company changed its name to Al Najdain Water Treatment Company and developed its

scope to include big Reverse Osmosis Desalination Plants in its specialization supplying private Farms, poultry firms, food firms and agricultural firms. In 2011, we supplied the first Industrial wastewater. Treatment plant to a newspaper. In addition to that, we became one of the main suppliers of water treatment chemicals in Kuwait, supplying the HVAC industry, swimming pools and Reverse Osmosis plant chemicals. Today, Al Najdain is a major provider of water treatment solutions for all types of industries. Also, we are authorized agents for several vital franchises in the water treatment industry which made us a key vendor for the Kuwaiti market. Our objective is to provide our clients with the best quality of water. We emphasis on the aftersales services as is the most important aspect in the industry that usually the vendor's neglect.

OUR VISION:

We believe that everyone must live to the highest standards possible. As water solutions providers We think that people should become more aware of the water problems arising around us by educating them the right way and providing them with the perfect solution to their problems.

OUR MISSION:

Our mission is to provide each of our clients with the most effective water solutions at competitive prices, and to promote water awareness in our community as it is lacking the knowledge of the importance of water "Right Information-Right recommendation.

ALNAJDAIN
WATER TREATMENT

OUR ORGANIZATION STRUCTURE:

OUR MANAGEMENT TEAM

The business is driven by our 2 working directors; collectively they accumulated more than 30 years of work experience in the Water Treatment industry. They are involved in business and development procurement, project management, and administration of the company. The management team proactively gathers feedback, identifies changes in the business environment, and reviews work processes. and communicates key learning points and company policy to all staff at regular meetings.

OUR PEOPLE:

Our people are crucial in the delivery of our services and solutions to our clients. To ensure that everyone is equipped with the right skill, knowledge and attitude, and comprehension. training program is put in place to constantly upgrade our people in technical and management skills. We believe firmly in providing the right training, accredited certification, and practical knowledge.

AP-PRO PLUS SELF-CLEANING FILTER

Innovative protection filter to remove suspended particles, sand and metal particles.

· 40 bar burst pressure.

· Temperature 40 °C.

· Made in Italy.

COST-SAVING:

Minimizes filter replacements and manual maintenance, lowering operational costs.

SELF-CLEANING:

Automatically cleans itself, extending filter life and reducing maintenance needs.

AFTER INSTALLATION

DOUBLE & TRIPLE JUMBO

3 M3/HR 2 STAGES:

- 1st stage: Sediment Filter.
- 2nd stage: GAC
- 3rd stage: CTO
- Made in Taiwan
- Made in Italy

(Exclusive in Al-Najdain)

ALNAJDAIN
WATER TREATMENT

BIG ONE PROFESSIONAL FILTRATION

- 60 m³/hr when empty
- Filters most of the sediments and small particles
- Has Filtration rate of 5 microns to 20 microns
- Working pressure of 6 bar
- Burst pressure of 20 bar

ALNAJDAIN
WATER TREATMENT

ULTRA FILTRATION FILTER

Our Ultra Filtration (UF) systems remove suspended solids, turbidity, and microscopic impurities down to 0.01–0.1 micron.

Available in various sizes, with hollow fiber or tubular membranes, they provide safe, clean water for residential, commercial, and industrial applications.

ALNAJDAIN
WATER TREATMENT

SOFTENERS

Al Najdain Co. has become professionals in manufacturing softeners industrial or Domestic. The softeners are manufactured and assembled by Al-Najdain abiding worldwide standards. All the assembled parts in the softeners are European made or US made. The main function of a softener is to remove the hardness found in the water and stop hard ions from forming soap scum. There are multiple ions that cause hardness, but usually, calcium and magnesium are the most common ions. The softener contains a resin that exchanges the Hardness causing ions by sodium through a sorption process.

ALNAJDAIN
WATER TREATMENT

SOFTNER SYSTEM 12,000 GPD

The Water Softener System is designed to remove hardness-causing minerals such as calcium and magnesium from water through an efficient ion-exchange process. This system helps prevent scale formation in pipelines, boilers, and equipment, improving system performance and extending the lifespan of appliances and industrial systems.

ALNAJDAIN
WATER TREATMENT

DOMESTIC REVERSE OSMOSIS

➤ 50-75 GPD 5 STAGES:

RO Filter 400 Gallon

ALNAJDAIN
WATER TREATMENT

Filterpur RO System

The Filterpur 2400 GPD RO System is a high-capacity commercial water purification solution designed for coffee shops, restaurants, and whole-house use. Featuring a 3-stage filtration system (ACF + Dual RO membranes) and an intelligent HMI control panel, it delivers 6.3 L/min of directly drinkable, high-quality RO water with stable performance and easy 5-second filter replacement.

ALNAJDAIN
WATER TREATMENT

WATER DISPENSERS

Our advanced water dispenser comes with an integrated Reverse Osmosis (RO) filtration system, eliminating the need for external water bottles.

The built-in 4-stage filtration process ensures high-quality purified drinking water, providing safe, clean, and great-tasting water always.

This system guarantees consistent filtration performance while reducing operational costs and the inconvenience of bottle replacement.

ALNAJDAIN
WATER TREATMENT

INDUSTRIAL PRODUCTS & SERVICES

AL NAJDAIN PRESENTS DIFFERENT TECHNOLOGIES SUCH AS:

- . Industrial Wastewater Recycling technologies for reuse purposes
- . Reverse Osmosis Plants (for drinking & other applications)
- . Sewage Treatment Plants for irrigation & other applications
- . Membrane Bioreactor technologies for wastewater reuse
- . Filtration, activated carbon & softening systems
- . Grey Water Plants for recycling applications.
- . Odor control Units for organic removals
- . Deionization & UV Sterilization system.
- . Iron & manganese removals.
- . Engineering solutions.
- . Disinfection Process.

800 GPD

ALNAJDAIN
WATER TREATMENT

REVERSE OSMOSIS PLANTS

TAP WATER REVERSES OSMOSIS PLANT:

- . Stainless steel centrifugal multi stage pumps.
- . 5 micron multi cartridge filter
- . Touch screen Siemens electrical control.
- . High pressure pipes in 16bar
- . Inlet shutoff & reject regulation vale.
- . Anti-Scalent dosing system.
- .. Thin film composite membranes.:
- . Pressure gauges.
- . Low & High pressure switches.
- . skid mounted.
- . Fiberglass membrane housing.
- . panel

ALNAJDAIN

ALNAJDAIN
WATER TREATMENT

ALNAJDAIN
WATER TREATMENT

BRACKISH WATER REVERSES OSMOSIS PLANT

- Stainless steel centrifugal multistage
- High pressure pipes in bar PVC & pump
- Thin film composite membranes
- stainless steel 316 l skid mounted
- Fiberglass membrane housing
- Antiscalent dosing system
- 5 micron cartridge filter
- Inlet waste shutoff valve
- High- & low-pressure switches
- Pressure gauges
- Touch Screen Siemens electrical control panel

ALNAJDAIN
WATER TREATMENT

ULTRAVIOLET (UV)

The UV Water Disinfection System provides a reliable and efficient method for water sterilization using advanced ultraviolet technology.

The system effectively inactivates bacteria, viruses, and other harmful microorganisms by disrupting their DNA, ensuring safe and microbiologically secure water.

ALNAJDAIN
WATER TREATMENT

CHEMICALS:

CMI is under license and supervision of the mother company in Germany.

CMI can apply to any equipment related to the process of treating water and with their technical back up and support; we are able to meet the quality as well

as the competitive prices.

CODE NUMBER	PRODUCT NAME	PACKAGE
CMI 200	Alkalinity Builder for Steam Boilers	25 kg
CMI 212	Catalyzed Oxygen Scavenger for Steam Boiler	25 kg
CMI 213	Hardness Stabilizer for Boiler water conditions	25 kg
CMI 214	Neutralizing Amines for Condensate Steam Boilers	25 kg
CMI 215	Multifunctional treatment for steam generating systems	25 kg
CMI 222	Foam Control Agent for Boilers	25 kg
CMI 313	Corrosion Inhibitor for Domestic Water Systems - with hard water	25 kg
CMI 401	Biocide for Cooling & Processing Water Systems	25 kg
CMI 402	Biocide for Processing Water Systems	25 kg
CMI 500	Corrosion Inhibitor for Closed, Half Open Cooling Towers, and Heating Systems	25 kg
CMI 600	Corrosion & Scale Inhibitor for cooling towers	25 kg
CMI 710	Anti-Scalent/Anti-foulant for Reverse Osmosis Membrane	25 kg
CMI 830	Organic acid cleaner for mineral deposits and iron oxide precipitation	25kg/powder
CMI 840	Iron fouling cleaner for Industrial applications	25 kg
CMI 1010	Algaecide for Swimming pools	25 kg
CMI 1060	pH controller for swimming pools	5kg/powder

DISINFECTION

Advanced water disinfection solutions are designed to eliminate harmful microorganisms and ensure microbiologically safe water for domestic, commercial, and industrial applications. Our systems utilize reliable technologies to maintain consistent water quality while complying with international safety standards.

ALNAJDAIN
WATER TREATMENT

GREY WATER SYSTEMS

- Automatic multimedia filter 25 micron
- Automatic self-cleaning filter
- 15 microns with controller
- Ultra-filtration 0.01 micron
- Raw water collection tank
- Air Blowers
- Feed & Backwash pumps
- Cartridge filter 5 micron
- Chlorination dosing unit
- Activated carbon filter
- Control level switch

ALNAJDAIN
WATER TREATMENT

DISSOLVED AIR FLOTATION (DAF)

- . Compact and efficient design
- . Micro-bubble flotation technology
- . Fully automated operation

Energy-efficient performance

Can be integrated with other technologies such as screening and sludge dewatering

- . Enhances overall wastewater treatment efficiency.

ALNAJDAIN
WATER TREATMENT

WASTE WATER TREATMENT

Sewage Treatment Plants (STP) are designed to efficiently treat wastewater by removing contaminants, organic matter, and harmful microorganisms before safe discharge or reuse. Our STP solutions ensure compliance with environmental regulations while promoting sustainable water management.

ALNAJDAIN
WATER TREATMENT

ALNAJDAIN
WATER TREATMENT

Swimming pools

Our swimming pool treatment systems are designed to maintain crystal-clear and hygienic water through efficient filtration, precise chlorine dosing, and reliable disinfection processes. These systems effectively remove impurities, control bacteria and algae growth, and ensure safe water quality in compliance with health and safety standards.

ALNAJDAIN
WATER TREATMENT

PUMPS

We offer a wide range of pumps, including IBARA pumps and recirculation pumps, suitable for various water treatment applications.

Our pumps come in different horsepower options, providing flexibility for both small and large-scale projects. They are designed for reliability, energy efficiency, and long-term operation.

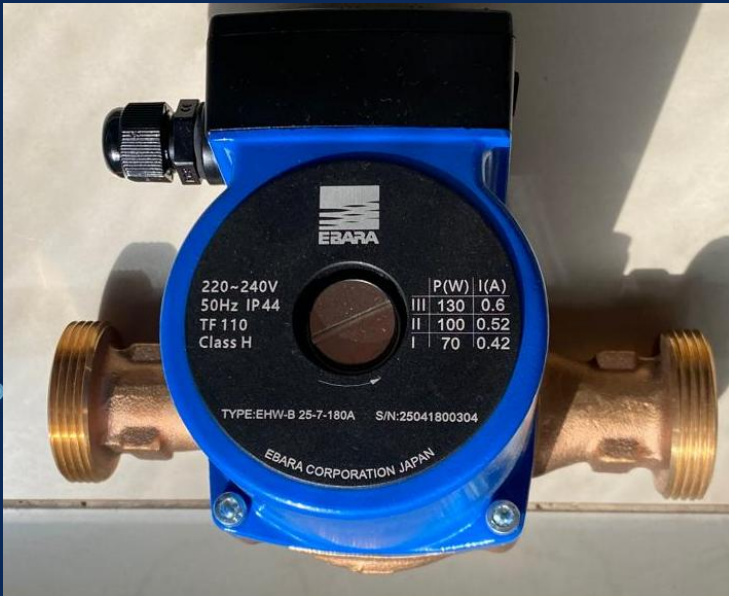

Vertical Pumps

STROαF

Circulating pumps

IBARA

ALNAJDAIN
WATER TREATMENT

PIPES

Our company provides high-quality piping solutions designed for durability and optimal performance in water treatment systems.

From residential to industrial applications, our pipes ensure reliable water flow, minimize leakage risks, and contribute to the overall efficiency of the system. We focus on delivering solutions that meet international standards and support long-term operations in challenging environment.

ALNAJDAIN
WATER TREATMENT

HEPA FILTERS

HEPA Filters are designed to meet the requirements of very fine filtration up to 0.3 microns at a high efficiency of 99.99%. They are widely used in places that require a high level of filtration such as hospitals, laboratories and clinics. HEPA Filters are available in different shapes and coatings which are easy to clean and maintain.

COOLING PADS

Cooling pads are designed to provide efficient evaporative cooling by allowing air to pass through water-saturated media, reducing air temperature while maintaining proper humidity levels. They are widely used in industrial, agricultural, and ventilation systems to improve cooling efficiency and air circulation.

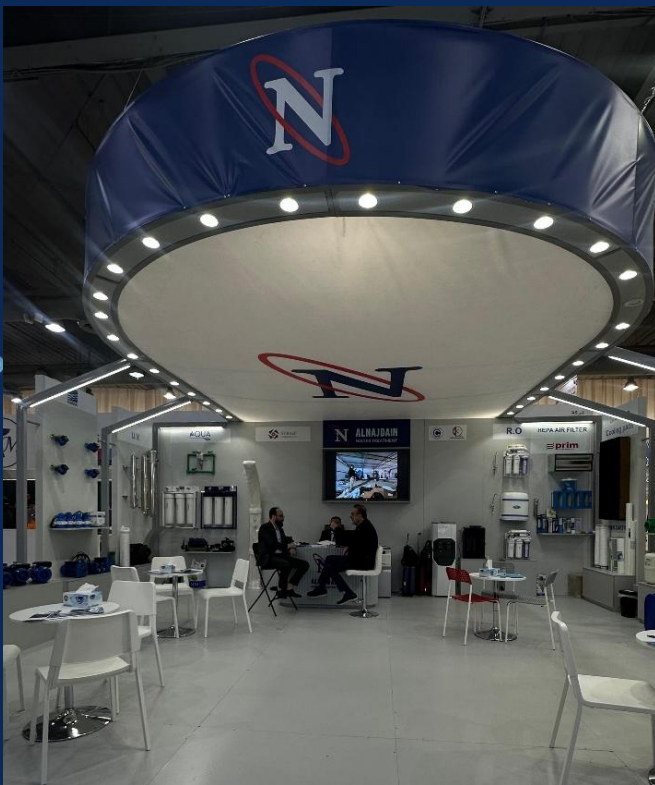

ALNAJDAIN
WATER TREATMENT

Exhibitions

As part of our commitment to staying at the forefront of the water treatment industry, we actively participate in major exhibitions and trade shows in Kuwait.

Our participation in events such as Bait Al Omr Exhibition 2025 at Kuwait International Fairground has allowed us to showcase our advanced water filtration, RO systems, and water disinfection solutions to a wide audience.

These exhibitions reflect our strong market presence and continuous engagement with clients, contractors, and industry professionals.

Showcasing our products at Baitak Exhibition— October 2025

Attention : Mr. Dabbous Turki Al-Dabbous – General Manager

Subject : **Submittal of Sewage Treatment Plant**
Contract No. CZ/GS/19 – Supply and Install of Sewage
Treatment Plant at Al Zour area

Ref. : Your letter no. KIPIC/SEW/003/18 dated 23rd September 2018

With reference to above mentioned subject, we have reviewed the submitted 'Sewage Treatment Plant' (model EFLOMB8R-80) and our meeting with your representatives held on 26th September 2018.

As discussed in the meeting and based on the revised specifications submitted, we found that the above model is **approved** as per Technical Specification Part 1 of the Contract.

This is for your information and further necessary action.

Yours faithfully,
For Kuwait Integrated Petroleum Industries Co. (KSC),

تحية طيبة وبعد.

المشروع / إنشاء وإنجاز وصيانة مركز شباب جليب الشيوخ
للموضوع / اعتماد معدات أحواض سباحة

بالإشارة إلى الموضوع أعلاه، وإلى كتابكم رقم (SQE/JSYC-PAYS/2016/192) الوارد إلينا بتاريخ 2016/10/24 بشأن طلب اعتماد معدات أحواض السباحة للمشروع. وبالإشارة إلى ما جاء بكتابكم بالتوصية على اعتماد معدات السباحة للخدمة من النوعية (AQUA) إيطالي الصنع كمادة مكافئة وذلك لمطابقتها للمواصفات الفنية التعاقدية بالإضافة إلى المميزات الإضافية المذكورة بكتابكم وحسب المرفقات. وبناءً على ذلك نفيدكم علماً بأنه لا مانع لدينا من اعتماد معدات أحواض السباحة من ماركة (AQUA) الإيطالية شريطة الآتي:

- 1- الالتزام بالمواصفات الفنية التعاقدية وملاحظات الاستشاري.
 - 2- إشراف الوكيل الإيطالي (AQUA) على التركيبات وإصدار شهادة بذلك بعد الانتهاء من أعمال تركيب المعدات.
 - 3- الالتزام بصيانة المعدات لمدة (3) سنوات بعد التشغيل وكفالة الفلاتر الخاصة بأحواض السباحة لمدة (10) سنوات كما جاء بكتاب للتعهد.
- وتفضلوا بقبول هائق الاحترام،،،

/ المدير العام

المحترمون

السادة/ شركة النجدين لمعالجة المياه
تحية طيبة وبعد،

**الموضوع: طلب اعتماد شركة النجدين لمعالجة مياه الصرف الصحي والصناعي
بإعادة التدوير وليس نقل النفايات**

بالإشارة إلى كتابكم الوارد إلينا والمؤرخ في 2025/08/3 بشأن طلب اعتماد شركة النجدين لمعالجة مياه الصرف الصحي والصناعي بإعادة التدوير وليس نقل النفايات لدى الهيئة (مرفق).
نحيطكم علماً بأن الإدارة المختصة بالهيئة العامة للبيئة قد قامت بالاطلاع على الموضوع، وبعد الاطلاع على الموضوع تبين بأن الأنشطة المطلوبة لا تستلزم اعتماد من الهيئة العامة للبيئة الا في حال مزاولتكم لنشاط نقل النفايات، فيلزم على ذلك اعتماد نشاط نقل النفايات الصلبة و السائلة.
وفي حال رغبتكم في مزاولة نشاط نقل نفايات مياه الصرف الصحي و الصناعي يلزم التسجيل وفقاً لقرار رقم 11 لسنة 2022 بشأن المتطلبات الأساسية لتسجيل الهيئة العامة للبيئة لشركات نقل النفايات.
ويجب على الشركة شراء كراسة التسجيل لنشاط نقل النفايات عبر الموقع الرسمي للهيئة العامة للبيئة في منصة (الامتثال البيئي) او التعاقد مع احدى الشركات المسجلة والمعتمدة لنقل النفايات لدى الهيئة العامة للبيئة .
وتفضلوا بقبول فائق الاحترام

نوف علي بهيجاني

المدير العام بالتكليف
